## Notice

### LL.M. in Data Economy Law (DEL LL.M.)

#### **Admissions for Academic Year 2026–27**

Government Law College, Mumbai is pleased to announce that, pursuant to and in furtherance of the Memorandum of Understanding entered into between Government Law College and the University for Continuing Education Krems, Austria, a special academic opportunity has been extended exclusively for students and alumni of Government Law College for admission to the **LL.M. in Data Economy Law (DEL LL.M.)** programme for Academic Year 2026–27.

As part of operationalizing the academic cooperation envisaged under the Memorandum of Understanding, the University for Continuing Education Krems has offered:

- **Four (4) guaranteed seats** for candidates referred by Government Law College, Mumbai; and
- A **fixed tuition fee waiver of €1000**, reducing the tuition fee from **€8800 to €7800** (approximately **11.36% tuition fee waiver**).

Priority for institutional referral and consideration shall be accorded in the following order:

1. Students graduating in the Batch of 2026;
2. Thereafter, students/alumni from the Batch of 2025;
3. Followed by students/alumni from the Batch of 2024, and so on.

Students interested in applying are encouraged to review the programme details available at the following link:

**Programme Website:** <https://www.donau-uni.ac.at/en/studies/data-economy-law.html>

Students are expected to apprise them of the application procedure and documents required for the same.

A panel from the college shall collectively shortlist names of candidates based on a breadth of parameters inter alia, such as academic grades, attendance record, etc.

The short-listed candidates will be informed officially via email following which their applications will be further referred to UWK, Austria.

**For further clarifications please contact:**

Asst. Prof. Anand Gujar – [shrianandgujar@gmail.com](mailto:shrianandgujar@gmail.com)

Asst. Prof. Shriyash Maindarkar – [shriyashmaindarkar@gmail.com](mailto:shriyashmaindarkar@gmail.com)

Mr. Paarth Gorradia – 9773575575, [gs.seas.glc@gmail.com](mailto:gs.seas.glc@gmail.com)

**Applications are to be sent first to: [seas.glc@gmail.com](mailto:seas.glc@gmail.com)**

The brochure to the DEL LL.M. Program is attached with this notice.

Wishing the students the very best ahead.

## Data Moves the World

In the context of the increasing importance of data in the economy, the LL.M. on Data Economy Law covers potentials, challenges and (legal and societal) risks of data-driven management and data-oriented business models. Knowledge will be provided on the legal, societal, technical and organizational dimension and on how to implement data-driven management and business practices in order to avoid risks and drawbacks.

*„Against the background of various complexities within the data economy and its regulatory framework, a profound legal education paired with the necessary technical, societal and managerial fundamentals is crucial to a successful participation in the data economy. Our new LL.M. program fills a gap in the international education landscape and offers state-of-the-art content and innovative learning designs to ensure the success of our students.“*

— Prof. Dr. Clemens Appl, LL.M., Program Director

## First Semester

The first semester is dedicated to **fundamentals of the data economy and its impact on law**. During the **onboarding week** at the beautiful Göttweig Abbey close to Krems (Austria), the students will be introduced to the core concepts of the program and the detailed structure. The first semester offers **4 learning cycles**, each with one to two weeks of preparatory remote learning followed by one week of on-campus lectures in Krems and one to two remote weeks for wrap-up and consolidation. At the end of each learning cycle, the students' knowledge is assessed through online exams.

## Second Semester

The second semester is dedicated to the **specialization**. It provides **3 learning cycles**, each with two to three weeks of preparatory remote work followed by one week of interactive on-campus lectures in Krems (Austria). During the preparation phase, students will work on individual or group projects. The results of these projects will be presented during courses held on-campus.

## Master's Thesis

In the course of the first semester of the program, students learn about legal methodology and scientific writing and work on a possible master's thesis topic. During the second semester, students develop their ideas into the final master's thesis and defend their results in front of a committee of experts.

### Program Structure

<b>Module 1</b> Business in the Digital Economy	6 ECTS
<b>Module 2</b> Data Science and Aspects of Ethics and Diversity	6 ECTS
<b>Module 3</b> IP/ICT Law and Fundamental Rights	6 ECTS
<b>Module 4</b> Data Protection Law	6 ECTS

<b>Module 5</b> Data Rights in the Data Life Cycle and Related Contractual Issues	6 ECTS
<b>Module 6</b> Data-oriented Business Models	6 ECTS
<b>Module 7</b> Management and Innovation	6 ECTS

<b>Module T1</b> Scientific Methods	3 ECTS
<b>Module T2</b> Master's Thesis	15 ECTS

## The LL.M. Program

In a data economy, businesses have large amounts of data available that enable them to make data-based decisions (data-driven management), to develop data-oriented business models and to rethink innovation processes. This applies not only to tech companies, but increasingly to SMEs and start-ups. In many instances automated systems (e.g. artificial intelligence) are used to prepare or make business decisions on the basis of data or in the context of innovation processes. However, various legal issues arise from the different stages in the data life cycle. Thus, data-driven decision making and data-oriented businesses require a broad spectrum of competences and skills: an intertwined technical understanding, management know-how and profound legal knowledge.

Against this background, the LL.M. on Data Economy Law was created within an Erasmus+ strategic partnership of four EU universities – University for Continuing Education Krems (Krems, Austria), Georg August University Göttingen (Göttingen, Germany), Masaryk University (Brno, Czech Republic) and Kazimieras Simonavicius University (Vilnius, Lithuania).

The LL.M. is an innovative multinational program tackling current legal problems of digitization. It provides transdisciplinary education in the field of management, technology and law. Legal modules especially cover IT- and IP-Law, Data Law, Privacy and Data Protection, Trade Secrets, Competition Law and Transnational Business Law.

The program faculty includes the professors and senior researchers from all partner universities as well as experienced practitioners from European law firms and technology companies, who bring practical insights to the classroom.

## Qualification Profile

Graduates of the Data Economy Law LL.M. will have the knowledge and skills to deal with legal issues related to information technology, e-commerce, data law, data protection and other aspects of the data economy. They will be able to develop strategies for the management of intangible assets in businesses, design different solutions to regulatory hurdles in the data economy and plan the implementation of digital business models. Graduates will be able to assess the legal risks of data-oriented business models in an international context.

A law degree or a degree from any other field of science (graduate level – NQF 6) plus relevant (practical) legal experience.

### Degree

Master of Laws – LL.M.

### Language

English

### Study Location

University for Continuing Education Krems  
Austria

### Duration

1 year, full-time  
1 October–29 September

### Application Deadline

31 August

### Learning Format

On-campus lectures blended with online learning

### ECTS Points

60

### Course Fee

EUR 8,800

In cooperation with

The University for Continuing Education KREMS specializes in academic continuing education for working professionals. As a public university for continuing education, it works with its expertise in research and teaching to overcome societal challenges and tailors its study programs to address them. The continuing education study programs cover ten fields of study and meet the specific requirements of students with work experience. With approximately 7,500 students coming from more than 100 countries, the University for Continuing Education KREMS combines its many years of experience in university-based continuing education with innovation to provide outstanding quality in research and teaching at an international level. The University holds the AQ Austria quality seal. Situated 60 km from Vienna in the alluring world heritage region Wachau, Campus KREMS is a highly attractive location.
